Professional Summary

- **Software Engineer** with experience in **software development**, **digital transformation**, and **artificial intelligence**.
- Skilled in standardizing project management tools, **creating dashboards**, and **automating processes**.
- Experienced in **developing web platforms**, **designing interfaces**, and **integrating modern technologies**.
- Personal projects focused on **continuous improvement** and exploration of new technologies.
- Education in **Software Engineering**, **Lean Six Sigma**, and **specialization in web technologies**.
- Practical experience in **AI**, including **training machine learning models** and **exploring generative AI.**
- **Advanced English** and **fluent Spanish**, with basic knowledge of Japanese and Italian.

Professional Experience

Ypê | Digital Transformation Intern | Jan 2024 - Present

- Standardization and simplification of Project Management Plan (PGP) tools using **PWA**, **Excel** and **Power BI**.
- Exploration of technology and **AI** tools for project management, process mapping, sales routing, approval workflows, and more.
- Participation in and facilitation of meetings in **English** and **Spanish** to explore new software and **AI** solutions.
- Creation of interactive dashboards for project management using **Power BI**, **HTML** and **CSS.**
- Automation of approval workflows for meeting minutes and summaries using **Power Automate.**

DPaschoal | Software Developer | Feb 2023 – Dec 2023

- Developed an innovative web platform for minicourses.
- Conceived, designed in **Figma**, and created interactive experiences and quizzes.
- Technologies: **React.js**, **Tailwind CSS**, **Zustand**, **Express.js**, **Node.js**, **Prisma** and **SQL Server**.
- Integrated with **Docker** for scalability and flexibility.

Personal Projects

- Developed websites in my free time to enhance skills and explore new technologies, with regularly updated projects on my portfolio.

Education

Software Engineering | PUC-Campinas | Jan 2021 – Dec 2024

· Major: **Software Engineering Courses**

Lean Six Sigma Green Belt | EDTI | Feb 2023 – Apr 2024

· Main Topics: **Lean Six Sigma Fundamentals, DMAIC, SIPOC, 5S, Kanban, Minitab.**

Specialization in React.js and Node.js | RocketSeat | Jun 2023 – Feb 2024

· Main Topics: **React.js, Node.js Tailwind CSS, Zustand, Prisma, Domain-Drive Design**

Skills and Knowledge

Languages

· **English:** Advanced (B2), Cambridge International Certificate, CNA Course (Jan 2014 – Dec 2020), currently attending weekly conversation practice.
· **Spanish:** Advanced (C1), SIELE Certificate, CNA Course (Jan 2019 – Dec 2020)
· **Japanese:** Basic (N4), Ongoing Classes.
· **Italian:** Basic (A2).

Extra-Curricular

· **Volunteer Work | Vitalità | Feb 2022 – Jul 2022**
  - Assisted elderly individuals, aged 70 and above, with one-on-one training to use recent technologies, enhancing their digital independence.
· **Python Tutor | PUC-Campinas | Jan 2022 – Jul 2022**
  - Guided and supported students in mastering **Python.**
· **Extension Project | PUC-Campinas | Jan 2022 – Dec 2022**
  - Developed systems in **Flutter** and **SQL** to promote accessibility, inclusion, and sustainability for vulnerable communities.

Office

Word, PowerPoint, Power Automate, Advanced Excel, Advanced Power BI.

Programming

Python, HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Nest.js, Node.js, Fastify, Docker, Git, Java, C, C++, Kotlin, SQL (Oracle), MongoDB.
